Description

Assistant Radio Surveyor Job in PERSOLKELLY Singapore Pte Ltd

Are you interested in working with radio equipment and surveys? PERSOLKELLY Singapore Pte Ltd is looking for a motivated Assistant Radio Surveyor to join our team. In this role, you will help with surveying and testing radio signals, ensuring that equipment is working properly. If you enjoy technical work and learning new skills, this is a great opportunity for you!

Responsibilities:

- Assist in conducting radio signal surveys and tests.
- Set up and operate radio equipment for surveys.
- Record and analyze data related to radio performance.
- Support senior surveyors in inspecting sites and equipment.
- Ensure all equipment is calibrated and maintained properly.
- Assist in preparing survey reports and documentation.
- Follow safety protocols while conducting surveys.
- Troubleshoot and resolve any issues with radio equipment.
- Work with other team members to complete survey tasks.
- Keep accurate records of survey findings and results.

APPLY NOW

Skills:

- Basic understanding of radio technology and equipment.
- Strong attention to detail and accuracy.
- Good problem-solving skills.
- Ability to work independently and as part of a team.
- Good communication skills to share information clearly.
- Willingness to learn new skills and techniques.

Qualifications:

- Diploma or certificate in electronics, telecommunications, or a related field.
- Knowledge of radio survey tools and equipment is an advantage.

Experience:

- No prior experience is required; fresh graduates are welcome to apply.
- Any internship or hands-on experience with radio equipment is a plus.

If you're eager to learn and work with radio systems, apply now to join
PERSOLKELLY Singapore Pte Ltd as an Assistant Radio Surveyor!
