Description

Engineer, 3D Printing Centre Job in Singapore General Hospital

Singapore General Hospital is looking for an **Engineer** to join our **3D Printing Centre**. If you have a passion for 3D printing and want to work in a healthcare environment, this is a great opportunity! You will support medical professionals by developing and printing 3D models for patient care and research.

(adsbygoogle = window.adsbygoogle || []).push({});

Responsibilities:

- Operate and maintain 3D printing machines.
- Design and develop 3D models for medical applications.
- Work with doctors and researchers to create patient-specific models.
- Ensure high-quality and accurate 3D prints.
- Troubleshoot printing issues and perform regular maintenance.
- Research and test new 3D printing materials and methods.
- Follow hospital guidelines and safety regulations.
- Document project progress and prepare technical reports.
- Train and assist hospital staff in using 3D printing technology.
- Support innovation projects in healthcare 3D printing.
