**Requirements**:

- Ability to perform repetitive tasks accurately and efficiently.
- Basic manual dexterity and attention to detail.
- No prior experience required; on-the-job training is provided.

### 2. Machine Operator

**Description**: Machine operators oversee the operation of machinery used in the production process. Responsibilities include setting up machines, monitoring operations, and performing routine maintenance to ensure smooth functioning.

**Requirements**:

- Experience with machinery operation is preferred but not always necessary.
- Good mechanical aptitude and problem-solving skills.
- Ability to follow technical instructions and adhere to safety protocols.

### 3. Packaging Worker

**Description**: Packaging workers are involved in the packaging and labeling of products for distribution. Duties include operating packaging machines, inspecting items for defects, and ensuring that products are securely packed.

**Requirements**:

- Ability to work quickly and maintain accuracy.

- Basic understanding of packaging procedures and equipment.
- No specific experience needed; training is typically provided.

### 4. Warehouse Associate

**Description**: Warehouse associates handle the receipt, storage, and dispatch of goods in a factory setting. Tasks include picking and packing orders, loading and unloading goods, and maintaining inventory records.

**Requirements**:

- Physical fitness and ability to lift heavy items.
- Basic literacy and numeracy skills.
- Previous warehouse experience is beneficial but not required.

### 5. Quality Control Inspector

**Description**: Quality control inspectors ensure that products meet required standards before they are shipped. This involves examining products for defects, testing samples, and documenting findings.

**Requirements**:

- Keen eye for detail and high standards for quality.
- Basic understanding of quality control processes.
- Prior experience in a similar role is advantageous.

### 6. Forklift Operator

**Description**: Forklift operators transport materials and products within the factory and warehouse. Duties include operating forklifts, loading and unloading goods, and ensuring the safe transport of items.

**Requirements**:

- Valid forklift license and certification.
- Experience operating forklifts is highly preferred.
- Good spatial awareness and attention to safety protocols.

## 7. Maintenance Worker

**Description**: Maintenance workers are responsible for the upkeep and repair of factory equipment and facilities. Tasks include performing routine maintenance, troubleshooting issues, and ensuring machinery is in good working order.

**Requirements**:

- Experience in mechanical or electrical maintenance.
- Strong problem-solving skills and technical knowledge.
- Relevant certifications or qualifications are often required.

## 8. Assembly Technician

**Description**: Assembly technicians work on putting together components and parts to form finished products. This can involve using hand tools, power tools, and assembly machinery.

**Requirements**:

- Ability to read and understand assembly instructions and blueprints.
- Manual dexterity and attention to detail.
- Previous experience in assembly is beneficial but not mandatory.

## 9. Cleanroom Technician

**Description**: Cleanroom technicians work in controlled environments to manufacture products that require a sterile environment. Responsibilities include maintaining cleanliness, handling sensitive materials, and following strict protocols.

**Requirements**:

- Ability to follow stringent cleanliness and safety guidelines.
- Attention to detail and precision in handling materials.
- Previous cleanroom experience is beneficial but not mandatory.

## 10. Food Production Worker

**Description**: Food production workers are involved in the processing and packaging of food products. Responsibilities include operating food processing machinery, monitoring product quality, and adhering to hygiene standards.

**Requirements**:

- Understanding of food safety and hygiene practices.
- Physical ability to stand for long periods and perform repetitive tasks.
- Experience in food production is advantageous but not essential.
